

# Estrogen Receptor Quantitative Control

Cell line controls for immunohistochemistry.

## Research Use Only

Product Code	Product Description
CC-BRS2032	2 Slide Pack
CC-BRS2033	5 Slide Pack
CC-BRS2034	X1 Cell microarray block

## Application

This product is suitable for use in immunohistochemistry.

## Materials

Four formalin fixed paraffin embedded cell lines with a quantitative range of expression for Estrogen Receptor (ER).

- Cell line A: Osteosarcoma
- Cell line B: Urothelial carcinoma
- Cell line C: Non-small cell lung carcinoma
- Cell line D: Breast adenocarcinoma

Cells are fixed in 10% neutral buffered formalin and paraffin wax embedded.

Sections are cut at 4µm, mounted on positively charged slides and baked overnight at 37°C. Cell microarrays (CMA) contain cores that are 1.5-2mm in diameter and 3-3.5mm in length. It is possible to obtain up to 400 sections depending on thickness and batch cutting.

## Expression Profile

Cell Line	IHC for Estrogen Receptor
A	Negative
B	Low
C	Intermediate
D	High

## Storage and Handling

Store at 2-8°C. Do not freeze (for expiration date please see the product label)

## Warnings and Precautions

1. The product is intended for research use only.
2. It is the responsibility of the end user to determine suitability with their reagents and procedures within their laboratory.
3. Do not use after expiration date printed on product labels. The user must validate any storage conditions other than those specified in the package insert.
